## **Philippe Auguste Edmond Mangones**

**(1883 - 1967)**

Philippe Auguste Edmond Mangones was born on September 25th 1883, at Anse à Veau, in the southern department of Haiti; he was the youngest child of a family of eight whose parents were Edouard Mangones and his wife Victoire, nee Malet. Edmond Mangones lost both his parents early in life and was raised by his grandmother Mrs. Thimothée Malet. He went to school at St-Louis de Gonzague, Port-au-Prince and at the age of 24 married Fernande Auguste, daughter of General Tancredi Auguste who later became President of the Republic.

All his life Edmond Mangones was a farmer. He grew sugar cane on a large plantation in the nearby Cul de Sac plain which supplies most of the cane for Port-au-Prince sugar mills. But, if agriculture provided him the

means of living, Edmond Mangones certainly did not confine himself to the sole occupation of farming. On several occasions he undertook public activities; he was elected to the Congress in 1913 and twice was mayor of Port-au-Prince (in 1922 and 1942). In 1935, he was part of a distinguished committee that attended the Conference of Montevideo which provided Cordell Hull the opportunity to define the Good Neighbor Policy advocated by President Franklin D. Roosevelt. Finally in 1947, together with the reknowned Dr. Price Mars, he participated, at Havana, Cuba, in the Conference in Archaeology.

But all these professional or public activities never deterred Edmond Mangones from his deep-seated goal in life: a passionate search for knowledge and wisdom. The thirst for culture caused him to gather patiently and lovingly all through his life, documents, books, coins, stamps, prehistoric artifacts, etc. He actually spent his life among his collections. A large part of his famous library now constitutes the Edmond Mangones Foundation, devotedly set up by his children, to serve as a source of information for anyone interested in the history of the Americas and particularly of Haiti. His Haitian stamp collection, long known as one of the finest, was somewhat neglected toward the end of his life because of failing health, but up to his death on May 19th, 1967, he worked on his beloved coins, which incidentally included a comprehensive collection of coins minted or used in Haiti from its birth to the beginning of this century. It is these coins which Harmer Rooke Numismatists is proud to present this evening.

# DON'T BID IN THE DARK

*If buying at auction is new to you*

*If you are unsure of what to bid*

*If your bids are generally unsuccessful*

*If you would like advice in bidding*

You can take much of the guessing out of bidding at auction. We'll be happy to place our sixty-seven years of auction experience at your service, by supplying our estimates of the probable realizations of the lots in which you are interested. Simply send us a list of these lot numbers (leaving space for us to insert our valuations), and enclose a stamped, self-addressed envelope. Our reply will be forwarded promptly. If time is short, call us for this information. OF COURSE, HOW MUCH YOU BID, OR WHETHER YOU BID AT ALL, IS UP TO YOU.

Naturally, using our estimates doesn't mean that you will obtain every lot on which you bid. But you will be in the ball park, and should obtain a fair proportion of your bids, and at prices consistent with current market values.
